

ABSTRACT

The prime purpose of this **College Bus Fees Management** is to create a fully-fledged application which would retrieve data as per requirement. This application generates reports related to the Bus management i.e. bus route, bus number, student details, fees paid and dues. These reports highlight various bus services and features of the bus, which can be subjected to improvement especially for the college administration to improve bus transport system. This interface is user friendly and effective.

Acknowledgement

We would firstly like to thank **Mr. Rajesh N Kamath, Assistant Professor, Information science and engineering** for an at most support and for guiding us throughout the project.

We would like to extend our gratitude to **Prof. Manjunath H, Head of the Department, Information science and engineering** for support in all kind of innovation.

We would like to Thank **Dr. G L Easwara Prasad, Principal, Mangalore Institute of Technology and Engineering** for underling support and effort in creating a learning environment in the institution.

In addition, we would like to extend our regards and thanks to all those who have helped us in concluding this project in successful manner by helping us in time.

List of Figures	iv
Chapters	
1 Introduction	1
1.1 Scope of Work	1
1.2 Existing System	1
1.3 Objectives	2
2 System Analysis and Design	3
2.1 Requirement Analysis	3
2.2 Functional Requirements	3
2.3 Nonfunctional Requirements	4
2.4 Use Case Diagram	5
2.5 System Requirements	6
2.6 Hardware Requirements	6
3 System Implementation	7
3.1 Add Bus details	7
3.2 Display bus details	7
3.3 Search from file for bus	8
3.4 Delete bus details	8
3.5 Update Bus details	8
4 Results and Discussion	9
5 Conclusion	13
References	14
